Frank Webster - Vice-Chairman / Director, Finders Keepers

“Most of my success in business has come from networking; it’s all about who you know. This only happens by making an effort to meet with and talk to other like-minded people who want to do business. It is fantastic to have this valuable resource here in Oxford - one day each year where you can literally be at the cutting edge of what’s happening in Oxfordshire. It literally is the biggest business networking and showcase event in the county.”
